

# Highly abrasive and/or corrosive products? We have the solution!

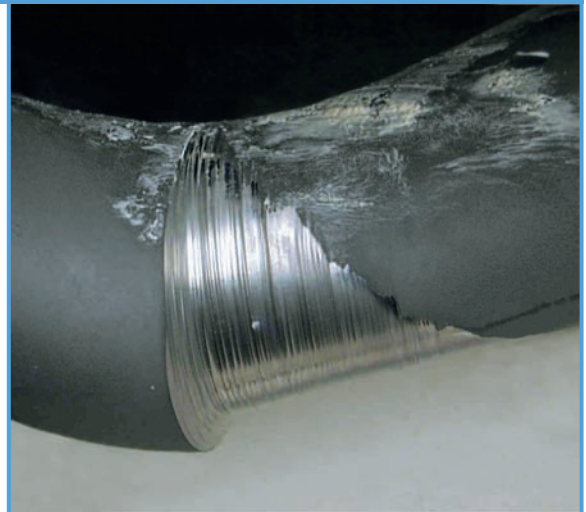

## SPECIAL COATINGS FOR MOINEAU® PUMP PARTS WILL:

- Provide innovative solutions to combat the effects of abrasion and corrosion
- Reduce production downtime and maintenance costs (LCC\*)  
\*LCC: Life Cycle Cost
- Extend the limits of the MOINEAU pump with respect to wear.

## OUR EXTENSIVE SERVICE INCLUDES:

- Either the supply of a new component with a coating (after submission of a quotation)
- Or the reconditioning of a used component:
  - Dimensional inspection (testing of technical feasibility) on a surface plate and quotation for reconditioning
  - Scouring of the component
  - Raw materials filling up if necessary
  - Dimensional checks
  - Special coating reapplying
  - Polishing
  - Supply and press fit of driver or rotor bushes if required
  - Final dimensional inspection (original PCM dimensions)
